** GVM = Gross Vehicle Mass. GVM includes the driver, passengers, full fuel tank and luggage.

Tare mass = unladen mass of vehicle and 10 litres of fuel, excludes tray body for Cab Chassis vehicles.

Δ Including optional tray.

* Indicates a metallic paint, which is available at extra cost.

∞ Figures have been calculated in accordance with ADR81/02 (combined fuel consumption data). Actual fuel consumption will vary depending on driving conditions, driver behavior, the condition of your vehicle and the accessories fitted.

† Towing capacity is subject to towbar/towball capacity. The capacity may be reduced if a non genuine Nissan towbar is fitted. The permitted download is directly related to the laden mass of vehicle. The maximum towball download is 300kg (4WD models).

~ The fitment of front protection systems and accessories having a combined weight in excess of 55 kgs will require a Positive Bonnet Restraint System & Nissan H/D front suspension springs.

^ Specification applies from February 2011 production. Please contact your Nissan Dealer for more information.

Single and King Cab models

Towball download	Vehicle Mass
80kg	GVM** (All variants)
100kg	Reduced loaded vehicle mass below GVM** by 30kg
150kg	Reduced loaded vehicle mass below GVM** by 110kg
200kg	Reduced loaded vehicle mass below GVM** by 185kg
250kg	Reduced loaded vehicle mass below GVM** by 250kg
300kg	Reduced loaded vehicle mass below GVM** by 310kg

2WD Dual Cab models

Towball download	Vehicle Mass
70kg	GVM** (All variants)
100kg	Reduced loaded vehicle mass to below GVM** by 40kg
150kg	Reduced loaded vehicle mass to below GVM** by 110kg
200kg	Reduced loaded vehicle mass to below GVM** by 180kg

4WD Dual Cab models

Towball download	Vehicle Mass
150kg	GVM** (All variants)
200kg	Reduced loaded vehicle mass below GVM** by 60kg
250kg	Reduced loaded vehicle mass below GVM** by 130kg
300kg	Reduced loaded vehicle mass below GVM** by 200kg

If the loaded vehicle's rear mass is reduced as shown in the tables, the towball download can be increased correspondingly. Accordingly, if the laden mass is 180kg less than the GVM,** a towball download of 200kg is approved (2WD). Different trailer types and different trailer manufacturers have varying towball downloads. The customer will need to contact the trailer manufacturer for information as to the download. Nissan is not able to make any recommendation on the use or suitability of load-levelling or weight distribution devices to be fitted to the vehicle. Customers should contact the manufacturers of these devices for further information.
